Central America is an attractive location for global expansion due to economic advantages. However, the region also faces geopolitical and economic challenges for businesses, including risks such as kidnapping, carjacking, extortion, theft, money laundering, harassment, and assault. Companies, employees, and assets – as well as business travelers, high-profile individuals, and expatriates who live or do business in the region – can be targets of these threats.

AI Honduras, an affiliate of Andrews International, helps multinational organizations and high-profile individuals operating in the region to mitigate their risks by providing a comprehensive range of consulting and investigation services. The company assists with enterprise risk management, cultural awareness and travel security for customers in the region, as well as due diligence investigations of employees, strategic suppliers, business ventures for merger and acquisition, asset and personal protection, monitoring, and emergency response planning.

AI Honduras provides the following key services:

- Risk analysis and planning
- Threat monitoring and intelligence briefings
- Cultural awareness training
- Executive protection
- Protective driver services
- Defensive/evasive driver training
- GPS monitoring of employee vehicles and cargo
- Emergency control center alert response services
- Guard protection
- Global investigations
- Customs-Trade Partnership Against Terrorism (C-TPAT) compliance evaluations
- Supply chain logistics security and cargo protection
- Crisis management planning and first response

Professionals from AI Honduras focus on providing business entry strategy, region threat assessments, vendor and employee screening, safety training, border compliance reviews, facility security, and contingency planning and response. AI Honduras has nearly two decades of experience in Latin America and a detailed understanding of local business and security conditions. Our team understands the broad range of risk to organizations and people in the region and has the expertise needed to mitigate those risks. For example, physical and transportation security entails more than just theft prevention; it also means keeping clients’ transportation systems and processes from becoming a channel of illegal activity. Effective risk assessment and security plans help clients find undisclosed problems or liabilities to eliminate surprises before they result in injury, financial loss or legal concerns.

Our network of reliable sources throughout the region, combined with formidable intelligence-gathering capabilities and years of experience in this high-risk region, provide the support resources clients need to make informed business decisions based on accurate and timely information. Our AI Honduras team includes multi-lingual nationals who are thoroughly familiar with local culture, customs, language, politics and geography. Our experts are highly trained and trusted consultants from the elite ranks of corporate, military, government and private organizations, with experience helping hundreds of clients with specific regional risk.

Our people are active in the following industry organizations, and many others:

- American Society of Industrial Security (ASIS)
- Association of Threat Assessment Professionals (ATAP)
- International Association of Bomb Technicians and Investigators (IABT)
- Overseas Security Advisory Council (OSAC)
- International Association of Chiefs of Police (IACP)

About the Company

AI Honduras is an affiliate of Andrews International, LLC, an industry-leading provider of security and risk mitigation services. Headquartered in Los Angeles, with local offices in the United States and Latin America and nearly 150 strategic partners around the world, the company provides security services to a wide range of business sectors in all 50 states and internationally to many of the Fortune 500. The firm’s portfolio of services includes uniformed security, consulting and investigations, personal protection, special event security, training, alarm monitoring and response, and disaster and emergency response services.
