

INDUSTRIAL & MANUFACTURING

Solutions for a Safer World™

Andrews International provides broad, full-spectrum security solutions to address the complexities and potential vulnerabilities of the industrial and manufacturing industry, as a highly sophisticated segment of the economy.

With the evolution of America's industrial and manufacturing sector into a highly sophisticated and automated segment of the economy, its demands for security have become ever more substantial. Encompassing, as it does, research, manufacturing and production, distribution, and marketing, the industrial and manufacturing sector faces a broad range of potential security vulnerabilities.

Manufacturing firms have become a major target of theft, vandalism, management-labor-related disputes, property damage, equipment and product tampering, and litigation. As products and processes continue to be developed, manufactured, and distributed, an extremely professional level of security planning, prevention and protection is required.

Andrews International brings to its industrial and manufacturing clients an integrated approach to security that provides a range of services and a proven level of reliability to meet both the conventional and extended security needs of the field.

Facilities and asset protection requires the highest level of security related to access control, ingress and

egress monitoring, after-hours protection, patrols, and alarm monitoring.

Professionals from Andrews International provide its clients with comprehensive guidelines for security, focusing on threat assessments, situation analysis, and meticulous planning to identify problems and issues before they arise.

Key services provided by the firm include:

- Facilities protection
- Protection against product tampering, counterfeiting, and diversion
- Security operations management
- Intellectual property protection
- Supply chain security
- Crisis management
- Emergency event response
- Access control and electronic security design
- Alarm monitoring and integrated security system management
- Environmental, health, and safety program design
